DETAILED ACTION

The amendment filed on 22 March 2004 has been entered and overcomes the rejections of claims 1-16.

Allowable Subject Matter

1. Claims 17-25 are allowed.

The following is an examiner's statement of reasons for allowance: These claims are allowable over the prior art since the specific process steps are not taught or suggested by the prior art of record, particularly the steps of forming a touch screen by forming a flexible spacer layer having a plurality of spacer dots on a resistor layer, forming a flexible circuit layer over the flexible matrix with the spacer dots and providing a flexible protective layer over the flexible circuit layer (claims 17, 20 and 21), or forming a capacitive touch screen comprising a metal oxide layer having metal corner contacts attached to the oxide layer (claims 18, 22 and 23) or forming a surface wave touch screen by etching surface acoustive wave reflection elements on one face of the substrate of cover sheet of an organic electro-luminescent display (claims 19, 24 and 25).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
